

C-Posts & Sign Posts

POSTS

The posts are 4" schedule 40 aluminum 6063-T6 pipe, 13' or 20' long, supplied with natural extruded finish or powder coated dark brown. The C-Post has a 3" x 12" cable opening and a 3" x 30" slot at one end. The Sign Post can be installed with a 5/8" x 12" steel rod to prevent rotation.

BASE

The C-Post base consists of two split base halves, two molded rubber pole grips and four 3/8"-16 x 3/4" button head socket cap screws with tamper resistant pins. The base is made of High Density Polyethylene with UV stabilization and each half contains two bronze threaded inserts. Colors are gray or dark brown.

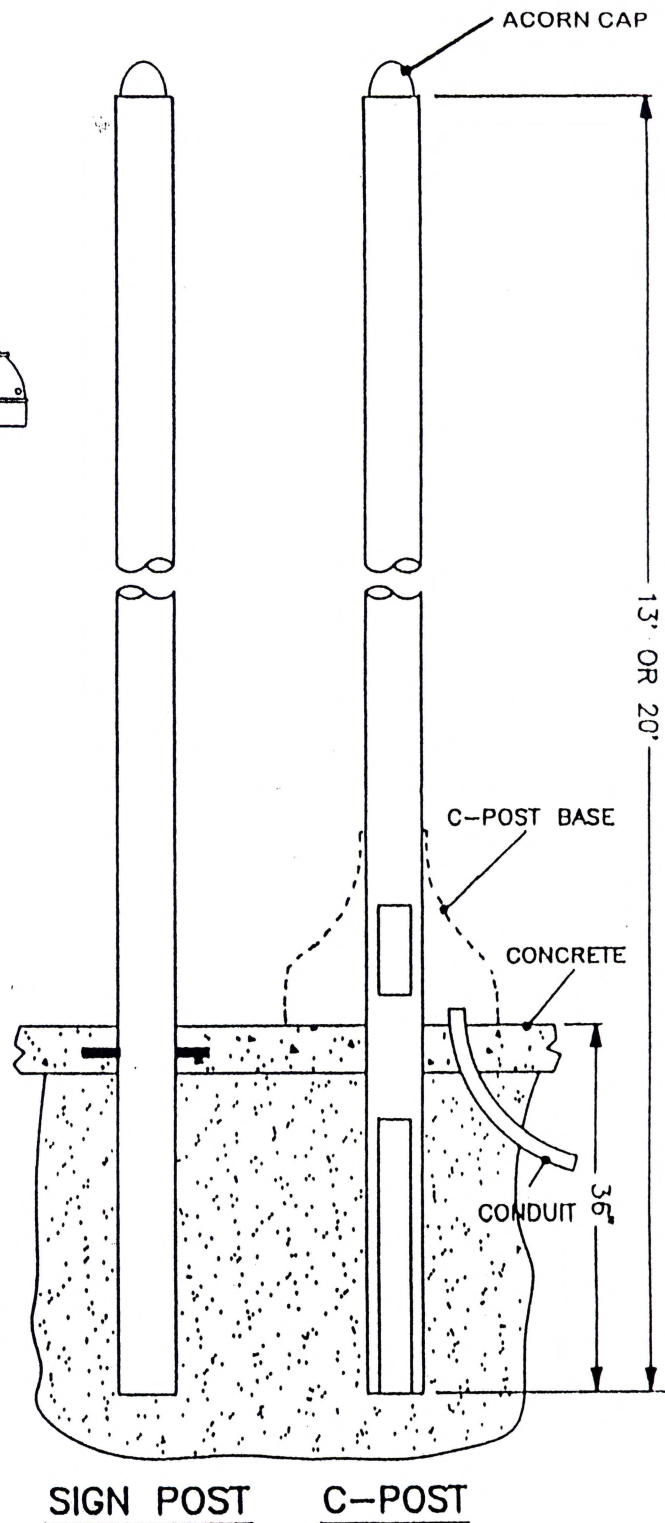

ACORN CAP

Cap is an ASTM B-26 aluminum casting which press fits into the C-Post. Available natural or powder coated dark brown.

ASSEMBLIES

All items have been approved and meet City of Philadelphia Specifications. C-Post Assembly consists of the post, base & cap. Sign Post Assembly consists of post & cap.
