

# PEDESTAL POLES & BASES

## Vent Posts

### VENT POSTS

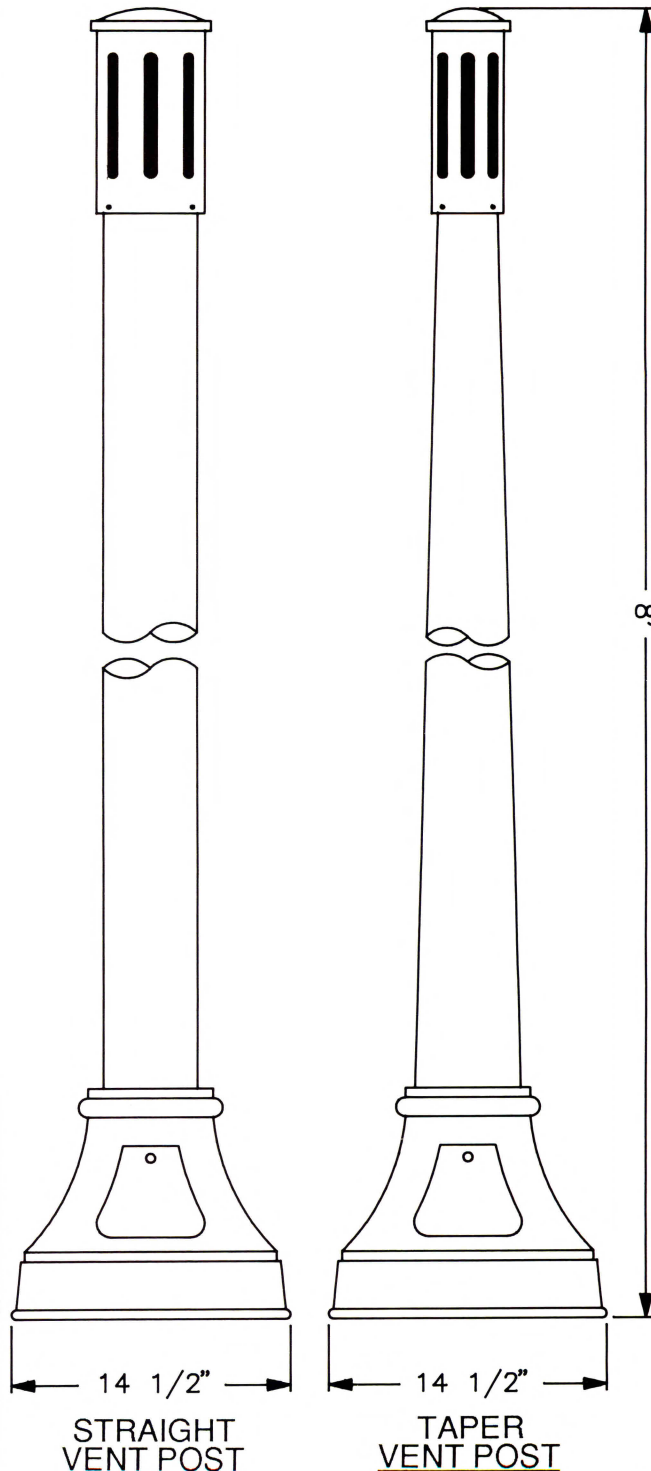

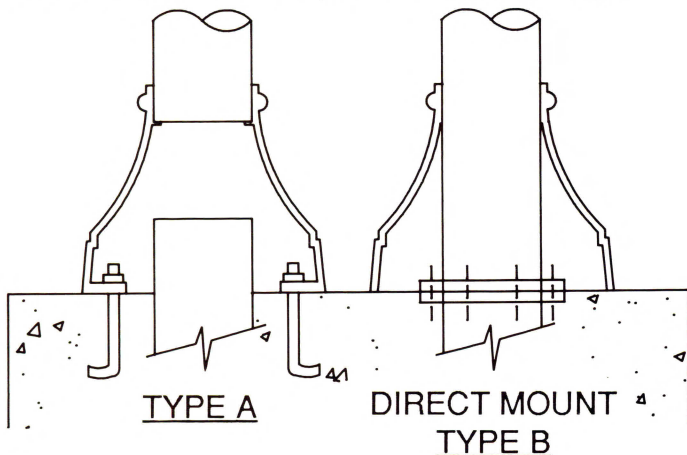

The Posts are available with straight or tapered shafts and can be direct mount to a standard 6" cast iron pipe flange (Type B) or fit over a 6" cast iron pipe (Type A). The standard height is 8' but additional sizes are available.

### SHAFTS

Taper shafts are 6" to 4 1/2" diameter taper aluminum 6063-T6 tubes. Straight shafts are 6" diameter aluminum 6063-T6 tubes. Both are satin brush finish and tire wrapped to protect finish during shipment.

### BASES

For the Type A configuration a standard #FAB-407 Round Base is welded to the shaft, fit over the cast iron pipe and attached to the concrete foundation with 5/8 anchor bolts. In the Type B configuration a cast aluminum flange is welded to the shaft and bolted directly to the cast iron flange. A modified #FAB-VP-B Round Base with the anchor bolt flange removed slides over the pole and covers the connection. The base is locked in place by 3/8" set screws. Both bases are 356 aluminum permanent mold castings.

Part #	Description
	<u>VENT POST</u>
FAB-VP1A	TAPER VENT POST
FAB-VP1B	TAPER VENT POST, DIRECT MOUNT
FAB-VP2A	STRAIGHT VENT POST
FAB-VP2B	STRAIGHT VENT POST DIRECT MOUNT
	<u>PARTS AND ACCESSORIES</u>
FAB-454-45	PIPE VENT, 4" PIPE
FAB-454-6	PIPE VENT, 6" TUBE
FAB-VP-B	VENT POST BASE, DIRECT MOUNT
FAB-002	ANCHORAGE, 5/8"
